

# Frigo Control

Frigo Control Multi Function System

Total Local & Long Distance Notification, Control & Data Record

## Frigo Control Multi Function System

### 1. Indication and Status Of :

Temperature Process Value, Set Point Value, Compressor, Fan, Resistances, Alarm, Remaining Defrost Time

### 2. Adjustment From Laptop, Mobile Phone For :

Temperature Set Point, Differential, Defrost Time Set Point, Defrost Duration, Alarm Delay . . .

### 3. Acknowledgment For :

Alarm

### 4. Data Logger & Record

### 5. Notification & Control to and via :

Mobile Phone, Pad, Computer

Email: [info@giokas.gr](mailto:info@giokas.gr)

## Frigo Control

## Technical Specifications

### FUNCTIONS

Local & Remote Control & Monitoring your Cooling System for :

1. System Status for COMPRESOR, FANS, RESISTANCES ALARMS, DEFROST, TEMPERATURE
2. Data Logger & Record
3. Notification & Control via Mobile Phone, Pad, Laptop, Computer
4. Plug & Play, Easy to Use

### LOAD

230 VAC / 10 Amp

Max Power : 2300 Watt on each of the 4 Relays

FUSED LOAD PROTECTION

Dimensions : 157 X 89 X 58mm LxWxD

### CE APPROVAL

**3 YEARS WARRANTY**
