i-intercom by AutoSysCon group

A High Tech & Low Cost
Intelligent Intercom System for Buildings

Why use the i-intercom ?

- High Tech Innovative Solution
- Low Cost System / Save Money & Time
- Could be installed in Old Buildings because it is Wireless, No need of cables, labors & extra jobs.
- Wireless / No need of Cables
- No need of intercom unit inside House/Apartment
- No Installation needed inside the House/Apartment
- More than one Mobile Phone can be accessed by the i-intercom
- Notification of visitor presence to different Mobile Phones even you are away
- Durable System because no intercom units inside House/Apartment
- No need for Maintenance

Utilization Of the i-intercom in simple steps

1- Visitor Pushes a Button

3- Home Owner Pushes a Mobiles Button to Open the Door

2- Home Owner Calls the i-intercom to Talk to Visitor via his Mobile

STEP 4: Visitor Enters

3 Systems in 1

USE ONLY ONE SYSTEM TO COVER 3 MAJOR ITEMS IN YOUR BUILDING

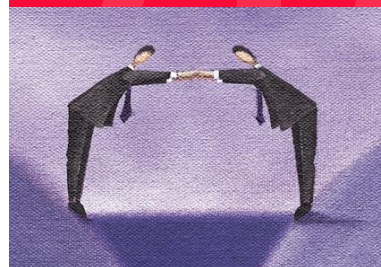

INTERCOM

SECURITY

FIRE DETECTION

How do you operate the i-intercom ?

1. The visitor Press the Apartment Button at the Entrance of the Building.
2. The Home owner gets a missing call in his mobile phone.
3. The Home owner calls back the i-intercom station to ask who is ringing if he needs to know.
4. The Home owner opens the door if he wants by calling the i-intercom station by pressing a button from his/her mobile phone.
5. When one of the owners wants to get in the building he just has to press a button on his mobile phone to open automatically the Main Entrance.

Additional options of the i-intercom

The i-intercom system can also provide you an innovative Burglar Alarm and also Fire Detection System.

In case of Burglar or Fire Alarm the system Notifies the Building Supervisor to his Mobile Phone, and turns on the Siren in the Building.

So you won't have to have an Burglar Alarm System in each apartment.

It protects you also from Fire incidents at the Building Entrance.

Because at usual Buildings even if you have Alarm System at your apartment it won't matter at all in case of an Emergency at the Building Lobby.

The world of tomorrow is available to you today!
